Particle Swarm Optimization and Salp Swarm Algorithm for the Segmentation of Diabetic Retinal Blood Vessel Images (Computational Intelligence and Neuroscience, SCI) Accepted 20 July 2022

Algorithm for diabetic retinal image analysis based on deep Learning (Multimedia Tools and Applications, SCI) Accepted 19 April 2023

Defect detection and classification of offshore wind turbine rotor blades (Nondestructive Testing and Evaluation, SCI) Accepted 5 July 2023

Research on spatial target recognition algorithm based on remote sensing images (IEEE Transactions on Cybernetics, SCI)

(, 202310836054.0)
